Report of the ESO Health Economics Working Group

- Committee strategy for 2024-2026 developed and submitted to ESO executive
- New project commenced in collaboration with SAFE under the leadership of Hanne Christensen.
 - The intention is that results from the initial modelling might be suitable to report at the 2025 ESO congress and will facilitate advocacy efforts. The model, once established, may also be adapted for other Stroke Care Targets e.g. secondary prevention as part of future collaborative initiatives.
- We thank the following committee members for their contributions:
 - Christian Weimar, Germany
 - Christina Hobeau, France
 - Milena Krasinska, UK
- We welcome Ales Tomek (Czech Republic)
- We are seeking new committee members to join us in 2025.
