Report of the ESO Membership Committee

Goal:

- To increase membership numbers. Membership growth is largely achieved by registering new members through conference attendance and acquiring more organisational members (associate members).
- A secondary goal is to convert associate into full ESO membership.

Meetings:

- Virtual in September and in-person meeting in Basel during ESOC, email between the meetings. Next meeting scheduled for February.

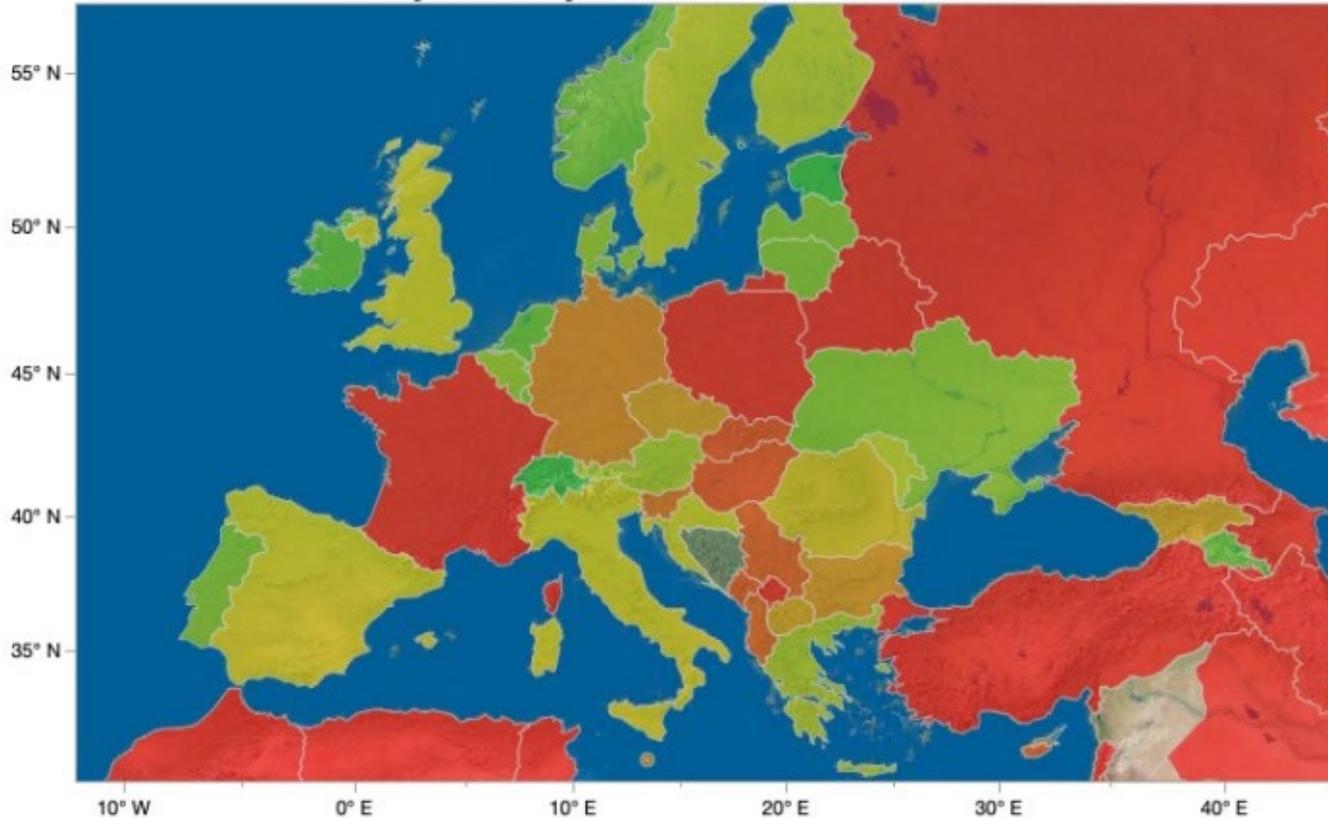

Report of the ESO Membership Committee

Actions:

- The members of the Membership committee has divided the different countries between them to approach the national societies and the potential members in different countries. Distribution of members is shown in the last slide (geographical in Europe and membership type).
- A dedicated contact person from each organization was identified to facilitate closer collaboration.
- ESO Membership Committee members have also contributed to the Fellows Selection Committee
- Membership campaign has been planned for 2025
- Emails to members regarding ESO Membership Renewal 2024
- ESO Members and non-members survey was updated and will be sent by the beginning of 2025.
- Further plans for collaboration with new organisations, discussions on strategies to recruit members among nurses and other health care providers in the stroke team.
- Reducing membership fees was also brought out and this will be discussed in the next meeting.
